“Obesity, Diet and Cancer Prevention”

Sharon Ross, PhD, MPH

Program Director in the Nutritional Science Research Group

Division of Cancer Prevention

National Cancer Institute

National Institutes of Health, USA

Tuesday, February 23, 2016

4:00 p.m.

Nelson Auditorium

Bldg 835, UC Irvine Campus

Dr. Sharon Ross is a Program Director in the Nutritional Science Research Group, Division of Cancer Prevention, National Cancer Institute, National Institutes of Health. In this capacity, she is responsible for directing, coordinating and managing a multi-disciplinary research grant portfolio in diet, nutrition, and cancer prevention. Topics in her portfolio and research interests include: diet, epigenetic events, and cancer prevention; diet, obesity and cancer risk; relationships between diet and microbiota during carcinogenesis; molecular approaches to diet and pancreatic cancer risk; as well as discovery of nutrient action through emerging technologies, including nanotechnology.
