

**UCI Internal Medicine Residency Training Program**  
**Journal Club Evaluation**

Resident	Faculty Name	Date
----------	--------------	------

<b>Practice-based Learning/ Improvement</b>	Not applicable to this exercise	Not competently performed	Competently performed	Comments
Creates an appropriate PICO Question				
Identifies the source material & evaluates the quality of the journal				
Clearly states goals of the paper				
Clearly delineates research type, parameters of the study (including inclusion criteria), and outcome measures				
Clearly states results				
Demonstrates basic understanding of the statistical approach				
Performs a Methods & Outcomes (Clinical Significance) Evaluation using Algorithms from the <b>EBM Guidebook. REQUIRED</b>				
<b>Professionalism</b>				
Commitment to Process				
Creates an appropriate report on paper or PowerPoint				
<b>Teaching Skills</b>				
Ability to Engage & Stimulate				
Slides or Handouts				
<b>Systems-based Practice</b>				
Provides appropriate clinical context for study. Clearly understands the implications of the results.				
<b>Overall Competence</b> (Must perform all relevant elements including the Methods & Outcomes Evaluation.)				

Paper/Manuscript: See attached documents

Comments: Specific comments given at the conference
